

Robert Davis

CEO, EA Technology

Robert is an experienced businessman who is driven by a desire to build successful organisations, create valuable propositions and make the world a better place. He has sat on a range of boards over a 20-year period, in private, public and third sectors.

He has a friendly and engaging style, whilst driving continuous improvement at board level, with courage to challenge conventional thinking. He is reflective, highly motivated and like to laugh!

In 2017, Robert navigated the company through a significant restructuring, resolving a long-standing pension liability and providing an outstanding platform to grow the company across its global footprint. He is currently assembling a renewed and highly experienced Board to drive the company's growth in a highly dynamic and exciting sector. Amongst his other roles, Robert sits as a Non-Executive Director on the Energy Systems Catapult and is the Co-Founder of the Cheshire Energy Hub and Director of its trading arm, Mersey Dee Energy. Having recently retired from the Cheshire & Warrington LEP Board, he continues to chair its Remuneration Committee and sits on its Strategy Board.
